Get Informed THEN Select the Best Contractor

specializing in

AB 811 / P.A.C.E.

Energy Financing Programs

How Much is the **\$UN**
Worth to You?

PROPERTY OWNERS:

Q: Thinking About Solar Energy?

A: You Should Be!

but get informed FIRST with

The Solar Advisor™

With The Solar Advisor™:

- ◆ Learn how your property uses energy. Learn about a variety of solar system options available (equipment, sizing, etc.) - not just the options available to a given contractor. Our Solar Technicians have extensive energy experience. Get an unbiased look at your property's solar potential as well as at the energy efficiency measures available. Don't risk learning this from a contractor.
- ◆ Understand the local and federal incentives. Our SolarCASH® Financial Model will illustrate the financial aspects and the cash implications of a solar and/or energy efficiency investment. Learn about the **AB 811 / P.A.C.E.** financing options that are available for your solar/efficiency project.
- ◆ Get the benefit of insider experience to help you select a qualified solar contractor from the many. Know what certifications and experience distinguishes one solar contractor from another. Get up to **FOUR** highly competitive estimates from the best and most experienced solar contractors in southern California. .
- ◆ Get the best contractor for the job and at the best price — while saving time and frustration — all from a position of knowledge and understanding. Get increased confidence in your solar/efficiency investment.
